Quick Wrapping

Single Loop Bow
Crisscross Bow

Quick Wrapping is a simple ribbon bow that is fastened with double sided tape. Just remove the lining from the tape, and in no time you've got attractive decorative gift wrap.

- This product can be customized to fit any box size.
- This bow is made from Item 5100 Single Faced Bliss Satin. Please choose the color and size you would like to use from the available options. (Page 10)
- The minimum order is 100 bows.
- The lead time for single loop and crisscross bows is 2 to 3 weeks.

Single Loop Bow
(Horizontal)

Single Loop Bow
(Vertical)

Single Loop Bows should go across the center of the box.

Crisscross Bow

Crisscross Bows can be arranged in any position.

How to Use Quick Wrapping

Single Loop

1. There is double sided tape on to one end of the ribbon. First rest the end of the ribbon with no tape on top of your box.
2. Remove the protective backing, and affix the end with double sided tape on top of the end with no tape.

Crisscross Loop

1. This item comes in 2 pieces. First, attach the ribbon with no bow to your box. To do this, rest the end of the ribbon with no tape on top of your box. Remove the protective backing, and affix the end with double sided tape on top of the end with no tape.
2. Next, take the ribbon with a bow attached. Decide where you would like the bow to intersect the first ribbon. The bow has double sided tape on its underside, so remove the protective backing and stick it on the intersection point.
3. Position the end of the ribbon with no tape around your box and hold it there.
4. Just like step one, remove the protective backing, and affix the end of the ribbon with double sided tape on top of the end with no tape.
